call records	source files	calling numbers	numbers reviewed 2 kept, 1 set aside

Reviewer statement

I reviewed the two files the client supplied for calls to 202-555-0123 between August 4 and September 21, 2026. Repeated numbers were kept or set aside as noted. This report lists every record in the workspace with its file and row.

Exact-number matches describe presented numbers in supplied records. They do not establish who initiated a historical call, consent, or TCPA liability.

Number decisions

Number	Records	Decision	Note	Reviewed by
+1 202-555-0142	14	Kept	Kept. Appears in both the call log and the voicemail log throughout August and September.	Maya Ortiz
+1 312-555-0178	9	Kept	Kept. Voicemails from this number match the client's written timeline.	Maya Ortiz
+1 415-555-0199	6	Set aside	Set aside. The client identified this as their pharmacy's reminder line.	Maya Ortiz

Number research

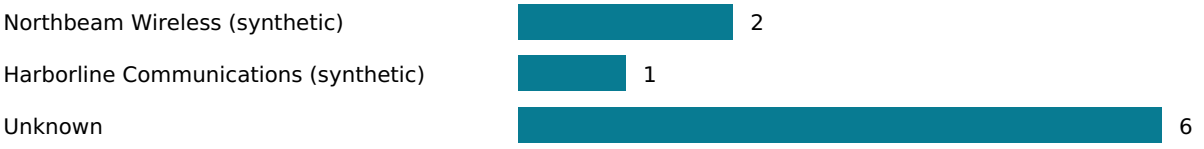

Number	Carrier	Line type	Caller name	Spam label	Messaging	Checked
+1 202-555-0142	Northbeam Wireless (synthetic)	Wireless	REDWATER SERVICES	ROBOCALL (score 0.82)	Northbeam Messaging (synthetic)	Oct 26, 2026
+1 312-555-0178	Harborline Communications (synthetic)	VoIP	No name on file	TELEMARKETING (score 0.61)	Messaging not enabled	Oct 26, 2026
+1 415-555-0199	Northbeam Wireless (synthetic)	Wireless	ELM ST PHARMACY	No spam label	Northbeam Messaging (synthetic)	Oct 26, 2026
+1 617-555-0111	No result	No result	No result	No result	No result	Oct 26, 2026

The most recent saved result for each number, with the date it was checked. These describe the number when it was checked, not who placed a past call. — means that result was not bought for that number.

Imported call records

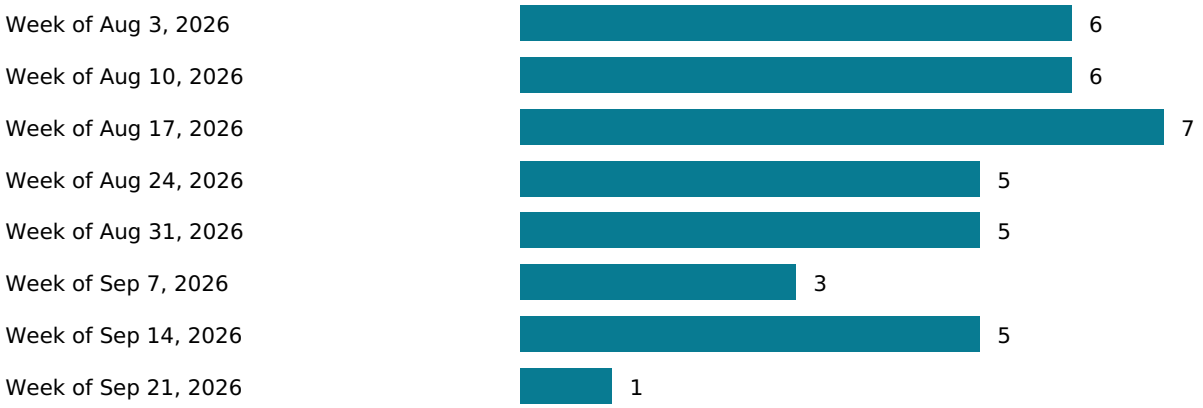

Records by number-review decision

Imported call records

Calls by week, as recorded

Imported call records

A decision on a number applies to every record from that number. It is not a separate decision on each call. A number that appears only once gets no review prompt. Rows set aside at import are not charted (1 in this workspace).

Call records

Dates and times are shown as recorded in the source files. Each record lists the file and row it came from.
